## History of Trail Inn Cafe

We want to be the first to welcome you to Frostburg and we are happy you have chosen to stay with us in our Historic Trail Inn, Café & Campground.

The original building of the Trail Inn was built in 1888, called the Tunnel Hotel, which provided inexpensive lodging for travelers on the C&P railroad. A terraced vineyard was located behind the building and a small cave-like structure provided storage for the variety of alcoholic brew that were served at the hotel. A moonshine still was located in the basement of the building that kept the brews flowing even during the prohibition of the 1920's, thereby adding to the historical mystique of the property. Although bought and sold through the years, the original building remained relatively unchanged.

In 1997, John & Beth Sayler purchased the property and created a café and shops by the Depot. In 2006, the shops were converted into hotel rooms, and the vineyard was converted into a primitive campground. The property was renamed the Trail Inn Café & Campground. Since the Great Allegheny Passage opened, the Inn has enjoyed hosting visitors from all over the world, including Germany, New Zealand, Spain, Netherlands, Great Britain and Argentina.

While you are visiting, stop by and enjoy some wonderful home cooking and the Worlds Best Broaster Chicken!
